Opposition, Affection and Love

Verify on the basis of your natural acceptance if you want to be related to:

- x None → The feeling of being related to none – in opposition to all
- √ One → The feeling of being related to one
- √ Many → The feeling of being related to many
  } Affection
- √ Everyone → The feeling of being related to all
  } Love

Affection (स्नेह) – The feeling of being related to the other
(acceptance of the other as one's relative)
दूसरे को संबंधी के रूप में स्वीकारने का भाव।

Love (प्रेम) – The feeling of being related to all (Complete Value)
= हर एक को संबंधी के रूप में स्वीकारने का भाव।

Chat Raise Hand

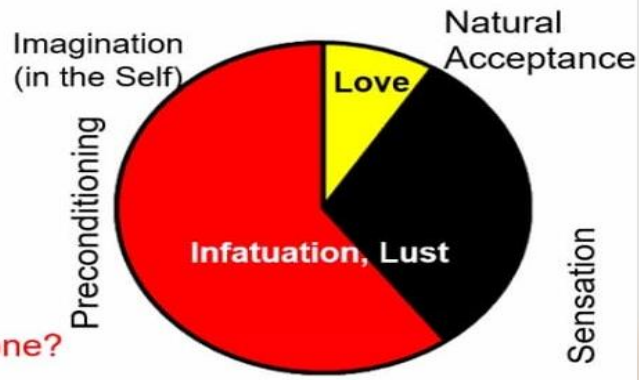
Preconditioning Related to Love – Common misunderstandings

Excitement (from sensation, preconditioning) is confused for feeling

Sensation –
Lust, getting from the other
Continuity not possible

Preconditioning –
Infatuation
1. Love at First Sight?
2. By this age, I must have GF/BF?
3. The other has 4 GF/BF; I have only one?

Continuity not possible



Right understanding (natural acceptance) –
Love (प्रेम) = **feeling** of being related to all, responsible towards all, giving to all
Continuity

Once trust, respect, affection, care, guidance… are ensured within, then the feeling of being related to all follows naturally

Members of Faculty, Dept. of ECE attended the fourth day of the five-day Online Workshop on **"Incorporating Universal Human Value in Technical Education for VC's, Directors, Deans and UHV Conveners"** organized by AICTE and hosted by Anna University on 14 May 2020.
