VISIT TO ATAL TUNNEL

Happy moments @ Manali

CIVIL | STUDENTS' PARTICIPATION | STUDY TOUR
VISIT TO ATAL TUNNEL**Ms S KEERTHI,**
IV CIVIL

Went for a small trekking on slopy hilly terrain which gave us challenging experience. And also went for other adventurous events such as skiing, yak ride and zip rope which gave us immense pleasure. The climate also added good travel experience.

I have visited ATAL Tunnel which is semi arched shaped tunnel with rigid pavement throughout the 9km length with air ventilation systems

**Mr MOHAMMED FAZIL SADIQ BATCHA,**
IV CIVIL**Mr P NAVEENRAJ,**
IV CIVIL

Viewed the various works and safety works done in the hilly terrain with vertical and horizontal curves with actual gradient in roadways

We had a great opportunity learning as well as enjoying during our study. We saw many structures and building techniques like Tunnel, Bridges, Retaining wall construction, Road construction, Pre stressed concreting, pre tensioning concreting techniques.

**Mr SAMPRUTH PIRABAKARAN,**
IV CIVIL**Mr V M SHARAN KARTHICK,**
IV CIVIL

On the way of travel we saw stepped counter fort retaining wall to resist land slides and temperature here stays between 10° C to -5° C

VISIT TO ATAL TUNNEL

Ms K S SUPRIYA,
IV CIVIL

We visited various small bridges constructed over small streams to enhance continuous transportation and the temperature here is between -4°C to 9°C and we had a great travel experience

It was a great experience at ATAL Tunnel. Viewed pretensioned works done near the ATAL tunnel to avoid landslides. Real time work of pretension works also seen

Mr ABUTARIQ ALIANWARDEEN,
III CIVIL

Mr S ASWIN RAM,
III CIVIL

It was a great experience visiting the atal tunnel. The safety measures in tunnel were proper. Emergency exit, fire safety, and ventilation were provided at adequate distance.

The tunnel was planned for ensuring an all weather road route to strategically important areas of Ladakh and providing round-the-year connectivity to the remote Lahaul-Spiti valley. And it was planned with emergency exit speed limit.

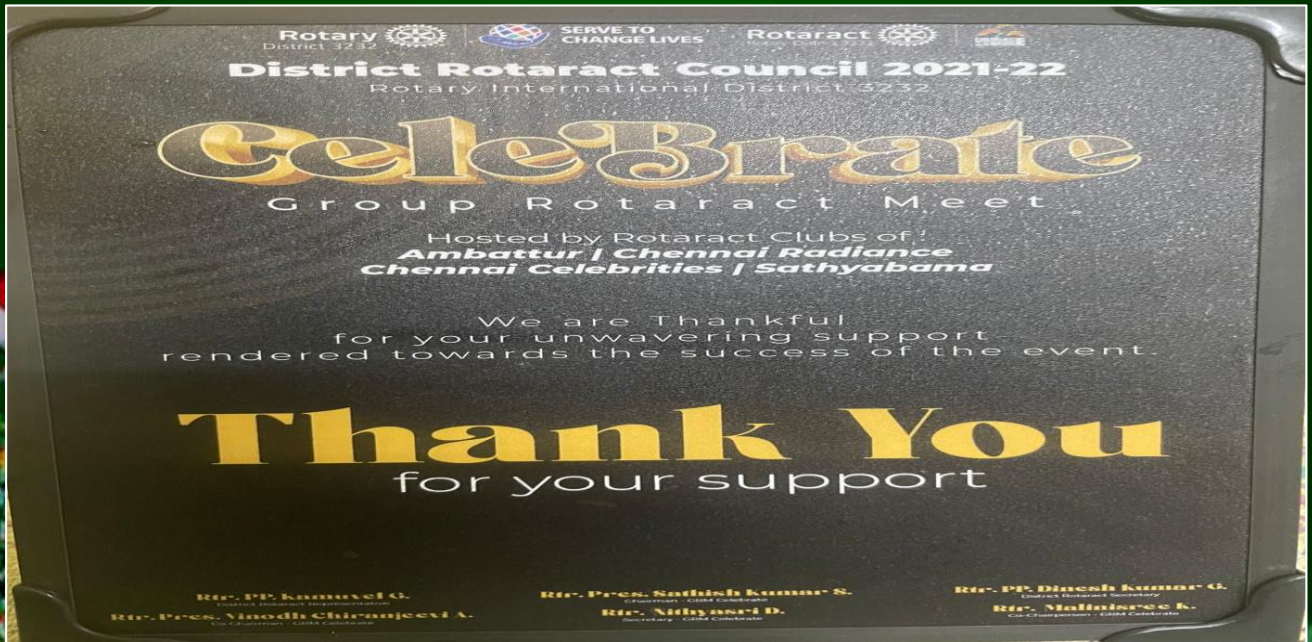

Mr DHASWANATH,
III CIVIL

Ms M SIVAPRIYA,
III CIVIL

Visited the adventurous climate of manali and its natural habitat was observed.

Proposed COPRAS based Optimal Cluster Head Selection (COPRAS-CHS) Technique

- The COPRAS model organizes the given problem of CH selection into criteria, alternatives and goals
- This model considers the goal of selecting the CH among the sensor nodes as alternatives in a specific cluster
- It considers the five unique factors of merged node, number of times a specific sensor node is selected as CH, distance of each sensor node from the centroid, level of residual energy and distance of each sensor node from other nodes as criteria during CH selection

Abstract

To operate the utilities in an efficient, reliable manner and manage their operation, recent developments have been in the field of energy management and measurement. During this energy crisis era, there is an increased power demand that has paved a path for the installation of new energy meters and new methodologies to monitor and measure the meter readings
