CIVIL | RESEARCH SCHOLAR | Ph.D. VIVA VOCE

ANNA UNIVERSITY::CHENNAI - 25	
Department of Civil Engineering Sri Krishna College of Technology Kovaipudur Coimbatore - 641042	
Printed Date : 12-03-2021 08:26:07-am	DH : AR8
Notification for Ph.D. Public Viva-Voce Examination	
Name of the Scholar	Balamurugan S
Registration Number	11210231005
Degree / Category	Ph.D. / Part-Time
Faculty	Civil Engineering
Title of the Thesis	ANALYZING SAFETY AND QUALITY PERFORMANCE AT THE CONSTRUCTION SITE BY USING KHNN MODEL
Date and Time of Viva-Voce Examination	22.03.2021 & 10.00-am
Venue	ES Seminar Hall Department of Civil Engineering Sri Krishna College of Technology, Coimbatore Coimbatore, Tamilnadu - 641042
Name and Address of the Supervisor	Dr. Lenin Sundar M Professor Department of Civil Engineering Sri Krishna College of Technology Kovaipudur Coimbatore - 641042
Name and Address of the Joint Supervisor/Research Co-ordinator/Supervisor In-charge	Not Applicable
Online Meeting Details	Google meet: Meeting ID https://meet.google.com/cyh-fpdp-cku Phone Numbers (???) ?+1 347-363-2736? PIN: 7762 666 329#?
All are cordially invited to attend the Ph.D. Public Viva-Voce Examination	
Date : 12-03-2021	Place : Sri Krishna College of Technology, Coimbatore, Coimbatore, Tamilnadu - 641042
Signature of the Supervisor (Name, date and seal), Ph.D., MISTE., VVA., MIE., Professor Department of Civil Engineering Sri Krishna College of Technology Coimbatore - 641 042	Signature of the Joint Supervisor / Research Co-ordinator / Supervisor In-charge (Name, date and seal) (If applicable)
Signature of the HoD/Director of the Centre of the Supervisor (Name, date and seal) Dr. I. PADMANABAN, M.Tech., Ph.D., Head of the Department Department of Civil Engineering Sri Krishna College of Technology Kovaipudur, Coimbatore - 641 042.	
Copy to : Personal Secretary to Vice Chancellor, Anna University, Chennai - 25. Personal Assistant to Registrar, Anna University, Chennai - 25. The Controller of Examinations, Anna university, Chennai - 25. The Additional Controller of Examinations, Anna university, Chennai - 25. The Director, Centre for Research, Anna University, Chennai - 25. The Director, Ramanujan Computing Centre, Anna University, Chennai - 25. Dean / Director/ Principal of Government, Government Aided and Affiliated Engineering Colleges.	

Mr S Balamurugan defended his dissertation on “Analyzing Safety and Quality Performance at the Construction Site by using KHNN Model” under the guidance of Dr M Lenin Sundar, Professor, Dept. of Civil Engineering on 22 March 2021.

Mr M Sri Bharani Tharaan, Mr V Sriram Muthu Mani, Mr M Srihari and Mr S Rohit Saran, Students of Final B.E. Mechanical Engineering, presented a paper on **“An Effect of Engine Performance and Exhaust Emissions using Palma Rosa Grass Oil as Biodiesel”** in an International Conference organised by KPRIET on 25 March 2021. Mr K Mohan, Asst. Professor, Dept. of Mechanical Engineering, mentored the students.

MECH | STUDENTS' PARTICIPATION IN INTERNATIONAL CONFERENCE

The screenshot displays a Google Meet interface during a presentation. The main content is a slide titled "ABSTRACT" from KPRIET (KPRI Institute of Engineering and Technology). The slide text reads: "India ranks 6th in Diesel consumption, 3.5% total commercial power. Current usage of diesel in India is about 88.8 billion liter (70% of total petrol production consumption) and is expected to reach 130 billion liter in 2025 as demand is growing at a rate of 5.6% per annum. While at home crude oil and natural gas production will remain around 33.97 mt during 2006-07. So, there will be a huge gap between demand as well as supply that needs to be met with increased fuel intake or increasing biodiesel production by improving biodiesel fields without sacrificing world food security. Biofuel consumption results in a significant reduction in non-combustible hydrocarbons by 30%, carbon monoxide by 20% and compound by 25%. It has almost there is no sulphur. Other than that, it has about 10% of the built-in oxygen, i.e., helps with fire burning and several positive Cetane. So, we have proposed Bio diesel production from Canola oil and Pongamia oil. we have used acid catalyst and methanol to produce Bio diesel. Green seed canola oil and Pongamia oil is Low grade oil. In this research, biodiesel was produced from canola oil, Pongamia oil. Transesterification of both oil with Alcohol, and Methanol catalyst (Canola) H₂SO₄ Acid catalyst (Pongamia oil). The reaction was conducted at Room Temperature and a stirring speed of 50 rpm for 10 min. Prior to transesterification, green seed canola oil was bleached to remove pigments using various adsorbents at different conditions. We have tested various blend of Biodiesel named as B10, B20, and B30 in Single Cylinder Four-stroke VCR Diesel Engine. The Break thermal efficiency and Mechanical Efficiency was Increased 15% and fuel consumption and cost was reduced." The slide also includes keywords: "Biofuel, Pongamia oil, canola oil, acid catalyst". The meeting interface shows 22 participants, including Dr. L. Rajesh Kumar and Dr. M. Sathya Sathiskumar. The meeting title is "17TUME233 SHARFARAAZ ISMAIL.R is presenting".

Mr S Rudresh, Mr K S Sanjay Ram, Mr R Sharfaraaj Ismail and Mr A Vinodh Kumar, Students of Final B.E. Mechanical Engineering, presented a paper on **“An Engine Performance Analysis And Emission Characteristics of IC Engine using Mixture of Canola and Pongamia Oil as Biodiesel”** in an International Conference organised by KPRIET on 26 March 2021. Mr K Mohan, Asst. Professor, Dept. of Mechanical Engineering, mentored the students.

EEE | STUDENTS' PARTICIPATION | L&T TECHGIUM GRAND FINALE

L&T Technology Services

TECHgium®
Engineering Innovators for Tomorrow

Grand Finale - 4th Edition

Dear Sir/Madam,

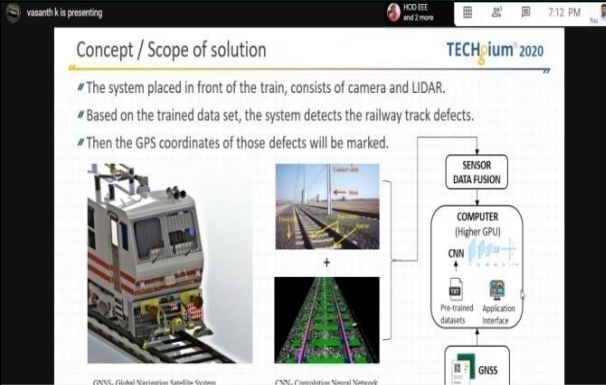

We will be honored to have your gracious presence at the Virtual Grand Finale of fourth edition of **TECHgium®**, the technology and innovation challenge for engineering students across India.

The response to the contest has been overwhelming with more than **22,500** students from **354** reputed colleges and universities participating. We received **3,217** abstracts for **61** challenge statements.

The top three teams will be announced at the valedictory function, the details of which are below:

- Date: Today, March 24, 2021
- Time: 4.30 p.m. – 6.00 p.m. IST (7.00 a.m. – 8.30 a.m. ET)
- Venue: [LinkedIn Live](#)

We look forward to your gracious presence

Concept / Scope of solution **TECHgium 2020**

- The system placed in front of the train, consists of camera and LIDAR.
- Based on the trained data set, the system detects the railway track defects.
- Then the GPS coordinates of those defects will be marked.

Implementation (1/4) **TECHgium 2020**

Railway Track Inspection system

- CAMERA HOLDER**
 - Camera provides 2D image feed with higher resolution outputs.
 - Lower depth of information.
 - IP67 protection
- AREA SCAN CAMERA**
 - Basler ACE acA1920-155ac
 - LM3HC 1" 6mm SMP C-Mount Lens.
- LIDAR PLACING**
 - LIDAR provides 3D Point pillar networks with higher accurate depth information.
 - Resolution outputs are sparse.
 - IP67 protection
- SOLID-STATE LIDAR**
 - Velodyne velarray M1600
 - Diverse environment application
- DAMPER SYSTEM**
 - Reduces the vibration and provides stability for the camera and LIDAR.

Testing / Analysis (1/3) **TECHgium 2020**

Frame rate calculation for 100 km/h

- The train is moving at 100 km/h. $(100 \times 1000) / (60 \times 60) = 27.778 \text{ m/s}$.
- We considered camera's FOV to be approx. $\text{FOV} = 2.2 \text{ m (H)} \times 1.1 \text{ m (V)}$
- $\text{FPS} = 27.77 / 1.1 = 25 \text{ FPS}$
- The camera should have **25 FPS** at minimum. If the frame rate is less than 25, we will be getting "blind spot".
- Larger FOV could be determined by practical experimenting.

Mr K Vasanth, Mr L Mitun and Mr B R Vignesh, Students of SKCT, participated in the grand finale on “**Commercial Methods To Detect Rail Surface Defects**” organised by L&T Techgium on 23 March 2021. Mr P Leninpugalhanthi, Asst Professor, Dept. of EEE, mentored the students.
