MECH | WORKSHOP ON EXAMINATION REFORMS

The image displays two screenshots from a Cisco Webex meeting. The top screenshot shows a presentation slide with a world map background. A blue box contains the text: "Extremely Weak and Arbitrary Assessment Practicals for verification of theory". Another blue box points to a video of a person working at a computer, labeled "Practical Outcomes (PrOs)". A notification box says "Resize to change the video size or the number of videos." The bottom screenshot shows a slide titled "Revised Bloom's Taxonomy of Cognitive Domain" with a green arrow pointing upwards. It lists three levels: "Remember - Retrieve relevant knowledge from long-term memory. Example: State the Thevenin's and Norton's theorems.", "Understand - Determine the meaning of instructional messages including oral, written and graphic communication. Example: Explain the utility of the Thevenin's theorem.", and "Apply - Carry out or use a procedure in a real (give) situation. Example: Use the Thevenin's theorem to find the current in the given network."

WHAT IS RESEARCH

A Short definition "gathering the information to answer a question and thereby helps to solve a problem".

from an old French word, "sercher" - to seek or search prefix "re"- again

STEPS TO CONDUCT RESEARCH

1. Identify the problem
2. Review the literature
3. Specify the problem
4. Conceptual framework design - Clearly define the terms and concepts
5. Choose the methodology for data collection
6. Collect the data and verify it
7. Analyze and interpret the data
8. Report and Evaluate the research
9. Communicate the research findings i.e. recommendations

The Dept. of IT in association with IQAC organised a webinar on "Drafting A Quality Research Article – Means & Methods" facilitated by Dr G Muruganath, Professor and Head, Dept. of EEE, Ahalia School of Engineering and Technology, Palakkad.
