10 Healthy Lifestyle Tips for Adults

- ★ Eat a variety of foods
- ★ Base your diet on plenty of foods rich in carbohydrates
- ★ Replace saturated with unsaturated fat
- ★ Enjoy plenty of fruits and vegetables
- ★ Reduce salt and sugar intake
- ★ Eat regularly, control the portion size
- ★ Drink plenty of fluids
- ★ Maintain a healthy body weight
- ★ Get on the move, make it a habit!
- ★ Start now! And keep changing gradually.

BOOK REVIEW

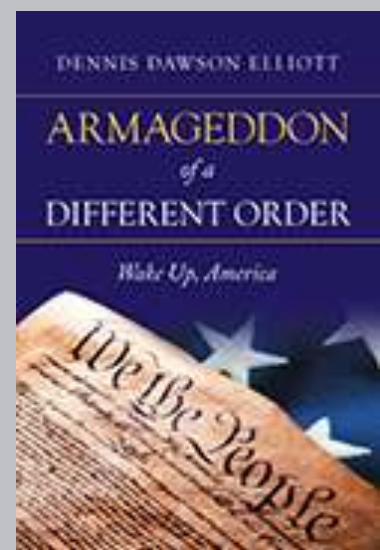

Title: *Armageddon of a Different Order: Wake Up, America*

Author: Dennis Dawson Elliott

"The world is losing respect for the United States because the president has demonstrated he cannot be trusted."

In a series of essays focused on both the breadth and a particular component of the Donald Trump presidency, the author of this book seeks to illuminate and call for accountability toward the myriad inconsistencies between promises and deliverables.

From the Russia investigation to the concealed tax documents, the Supreme Court appointees and the constant turnover of staff, every remarkable fact or curiosity of Trump's White House is examined and scrutinized by the author.

Challenging the reader to resist rather than persist, these essays are a call to action for a country that has enjoyed prosperity for centuries but must also endure greater scrutiny on the global scale, especially in a digital age. Despite being a warning to the readers and to the country about the dangers of Trump's behavior both domestically and abroad, the author does manage to have a little creative fun while making his case known.

At the end of the book, a short glossary is featured that contains many words relevant to the executive branch, their definition, and then an alternate definition in step with or tied to Trump's actions in office.

Readers who are either concerned for the state of affairs in this country and want to learn more about what makes this government abnormal, or those who wish to understand better why so many people are appalled or upset, will find this book very enlightening.

HAPPY HOURS 😊

Happy Moments of our Faculty

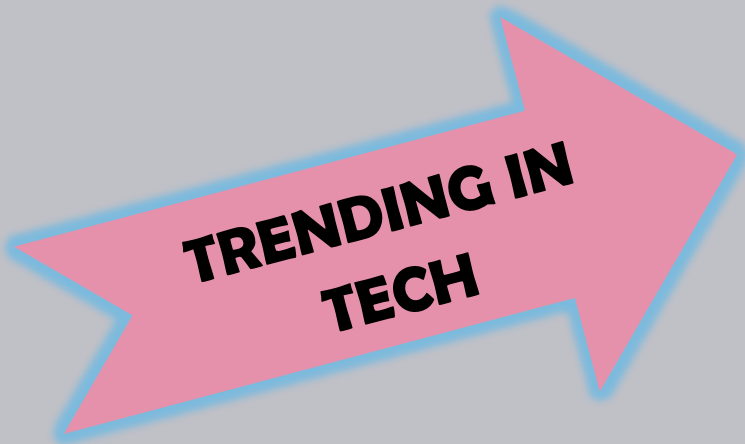

Alumni Corner
Our Alumni Mr. K.Gowtham of 2014-18 Batch is doing his PG at Coventry University.

SOLAR PANEL WINDOWS

Soon, your home may be able to generate solar power from places other than your roof. As the solar market evolves and expands, companies are looking into new solar technologies aimed at spreading solar energy generation beyond traditional rooftop and ground-mount solar panels. One such idea, solar panel windows, has gained momentum recently, and could represent part of the solar market's future.

DID U KNOW???

Bananas are curved because they grow towards the sun.

Bananas go through a process called “negative geotropism.” Instead of growing towards the ground, they start growing towards the sun.

The fruit grows against gravity, which gives the banana its familiar curved shape.

Facebook, Instagram and Twitter are all banned in China.

Those aren't the only ones either – over 8,000 domain names are blocked.

Other major banned social network sites include Pinterest and Tumblr.

Polar bears could eat as many as 86 penguins in a single sitting...

If they didn't live at opposite ends of the earth! Polar bears live in the arctic, whereas penguins usually live in Antarctica.

The average male gets bored of a shopping trip after 26 minutes. Meanwhile, women don't get tired of shopping until around 2 hours!

POEM ABOUT WANDERLUST

Mom and dad of this girl said,
Yes you can
So she made out a different plan
Packing up fast
To get lost
"I am only" kind of travel
Was her all time favourite marvel
Everything was with her hold
She was in search of wander gold
In love with the places,
Where she had not visited yet
And wondering about the people
Whom she had never met
Many mysteries exists
That she will not be knowing
Whatever may happen
She keeps going.
