KNOWLEDGE

UPDATE

ECE Department - Dr.A.Kirthik -
Asso. Professor & Ms.Yamini
Shanmugam-AP are attending one
week STTP from 17th to 22nd June
on "From Idea to Implementation:
Exploring the potentials of FPGA in
Smart Environment" at PSG Tech

Civil Department - Ms.R.Preethi,
AP/Civil shared her experience
gained from the 3 days Student
Induction Program at PSG i-Tech, to
the Faculty of Civil Engineering
Department

SoM - Karthikeyan N - AP.
Attending a Five Day National Level
Workshop on Data Analysis for
Business Research (18th June to
22nd June) in Pondicherry
Univeristy.

S&H -Dr. D. Shanthosh shanthakumar, Dr. N. Nalini, Mr. V. Marianantha kumar, Mr. S. Prabhu are participating in AICTE Sponsored Faculty Development Programme on Student Induction Programme at PSG Institute of Technology and Applied Research

S&H -Mr. S. Karthik, is participating in a Faculty Development Programme on MA8151 – Engineering Maths – I at : University College of Engineering, Dindigul.

MEETINGS & DISCUSSIONS

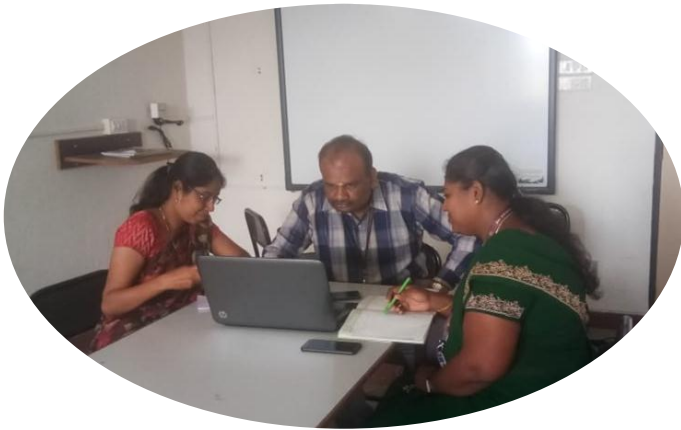

ECE Department - II Year Coordinator conducted a meeting along with II Year tutors regarding tutor related activities for 2019-20 odd semester

ICE Department – A Department meeting was convened to discuss about the academic year activities 19-20 odd

EEE Department – Dr. E. Nandakumar for the subject "Renewable energy systems" convened course committee meeting.

EEE Department – Mr. S. Nagakumararaj for the subject "Electrical Drives and Control" convened course committee meeting.

EEE Department – Dr. S. Saravanan for the subject "Microprocessors and Microcontrollers" convened course committee meeting.

Mech Department – Dr.P.Prathap, HoD professor/Mech convened a meeting to discuss about meetings with Year coordinators and Tutors

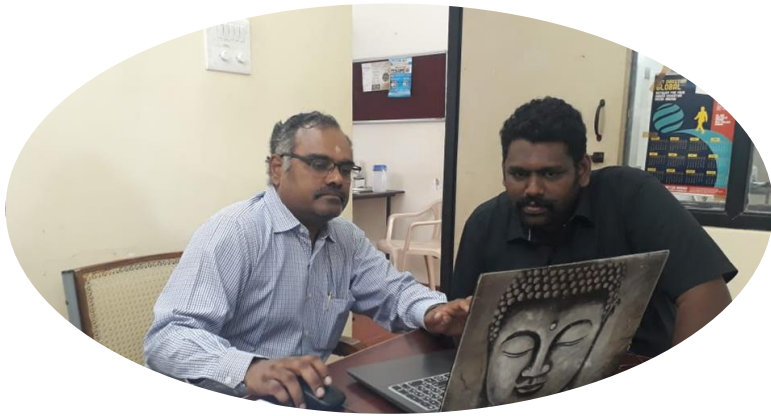

Civil Department – Department Meeting was conducted on scheduling of Activities for the Academic Year 2019-20 (Odd semester).

CSE Department – Yearwise coordinator meeting with tutors for the academic year 19-20 was conducted in the department.

Mech Department – Mr.R.Manivannan, AP/ Mech & Dr. Santhosh srinivasan have conducted a Course committee meeting for the subject Engineering management and financial accounting".

IT Department – Dr. G. M. Tamilselvan HoD/IT, convened a meeting regarding Academic Preparation for the current semester and SIG Activities for the students and Faculty members.

EEE Department – Course coordinator's for various subject convened course committee meeting

INTERESTING ENGINEERING

Like many other objects of daily utility, our mirrors are getting smarter too and HiMirror is a company pioneering in this field. HiMirror Mini is one of the latest products to be added to the company's catalog of smart mirrors and besides letting you look at your face with greater clarity compared to a normal mirror, this one can perform a total of 8 different types of analyses on your face. This includes looking for wrinkles, fine lines, dark spots, roughness, complexion etc. by dividing your face into different areas and analyzing each differently. Based on this, the smart mirror offers advice to improve your skin by keeping it hydrated or using different types of lotions to fight problems like acne. You can also order more beauty products by just asking Alexa which comes inbuilt in this smart mirror.

BOOK REVIEW

THE HUNGRY TIDE

Amitav Ghosh

In between the sea and the plains of Bengal, on the easternmost coast of India, lies an immense archipelago of islands. Some of these islands are vast and some no larger than sandbars; some have lasted through recorded history while others have just washed into being. These are the Sundarbans - the beautiful lands. Here there are no borders to divide fresh water from salt, river from sea, even land from water. The tides reach more than two hundred miles inland, and every day thousands of acres of mangrove forest disappear only to re-emerge hours later. For hundreds of years, only the truly dispossessed and the hopeless dreamers of the world have braved the man eaters and the crocodiles who rule there, to eke a precarious existence from the unyielding mud.

The settlers of the Sundarbans believe that anyone who dares venture into the vast watery labyrinth without a pure heart, will never return. It is the arrival of Piyali Roy, of Indian parentage but stubbornly American, and Kanai Dutt, a sophisticated Delhi businessman, that disturbs the delicate balance of settlement life and sets in motion a fateful cataclysm. Kanai has come to visit his widowed aunt and to review some writings left behind by her husband, a political radical who died mysteriously in the aftermath of a local uprising. He meets Piya on the train from Calcutta and learns she has come to the Sundarbans in search of a rare species of river dolphin. When she hires Fokir, an illiterate, yet proud local fisherman to guide her through the maze like backwaters, Kanai becomes her translator. From this moment, the tide begins to turn.

Amitav Ghosh has discovered yet another new territory, summoning a singular place from its history, language and myth and bringing it to life. Yet the achievement of *The Hungry Tide* is in its exploration of a far darker and more unknowable jungle, the human heart. It is a novel that asks at every turn: what danger resides there, and what delusion? What man can take the true measure of another?

The Hungry Tide is a whirlwind work of the imagination, every bit as epic in scope and ambition as his beloved and bestselling work, *The Glass Palace*
