**Civil Department - Mr. A.S.Sai Ganesan of II-Civil, got selected to take part in the World Ranking Tackwondo Tournament to be held in Hyderabad**

### Snore Circle

Snoring is caused due to restricted airflow in the throat while sleeping and besides being a major annoyance, can be a cause of many diseases. So if you want to break the snoring habits you or someone in the family might have, Snore Circle is a great gadget. It uses a combination of audio and bone conduction to sense when you're snoring and in turn, sends micro signals to the brain to reduce – and completely eliminate – snoring. Besides helping you give up snoring, the compatible app will monitor the quality of your sleep and with the latest iteration, you can wear your accomplishments of giving up snoring as a badge of pride.

If you replace the W with a T in the questions Where?, What?, and When?, you've already answered them.

1776 United States Declaration of Independence

2009 The World Health Organization declares H1N1 swine flu to be a global pandemic, the first such incident in over forty years

## HEALTH TIPS

Despite being high in fat, nuts are incredibly nutritious and healthy.

They're loaded with magnesium, vitamin E, fiber, and various other nutrients.

Nuts can help you lose weight and may help fight with diabetes and heart disease.

## AWARENESS CORNER

Waste Segregation  
The Need Of The Hour

**Red Bin:**  
For domestic hazardous waste

**Green Bin:**  
For biodegradable waste

**Blue Bin:**  
For dry recyclable waste

NDTV

The awareness corner features a central graphic with a yellow border of glowing lights. It displays three waste bins: a red bin for domestic hazardous waste, a green bin for biodegradable waste, and a blue bin for dry recyclable waste. The text 'Waste Segregation The Need Of The Hour' is prominently displayed at the top, and the NDTV logo is in the bottom right corner.

## BOOK REVIEW

### Tuesdays with Morrie

#### Mitch Albom

Maybe it was a grandparent, or a teacher or a colleague. Someone older, patient and wise, who understood you when you were young and searching, and gave you sound advice to help you make your way through it. For Mitch Albom, that person was Morrie Schwartz, his college professor from nearly twenty years ago.

Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded. Wouldn't you like to see that person again, ask the bigger questions that still haunt you?

Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life. Knowing he was dying of ALS - or motor neurone disease - Mitch visited Morrie in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final 'class': lessons in how to live.
