## INTERESTING ENGINEERING

### Eyelights – The First Holographic Car Assistant

The days of getting distracted from the road while interacting with your car's infotainment system will soon be over, thanks to systems like Eyelights. Eyelights is a concept technology which uses a holograph instead of a real screen to display information like maps, vital stats related to the car, speed etc. This allows you to keep an eye on the road even while interacting with the system. Further, since there is no physical screen, you can simply wave your hand in the air to control the system which makes it super handy (pun intended). Eyelights is definitely designed to improve and revolutionize how we interact with our cars and is capable of replacing touch interfaces completely.

# WHAT HAPPENED TODAY

In the year **1964**, Nelson Mandela was sentenced to life imprisonment in South Africa.

In the year **1952**, Jammu & Kashmir assembly finally terminated hereditary monarchy.

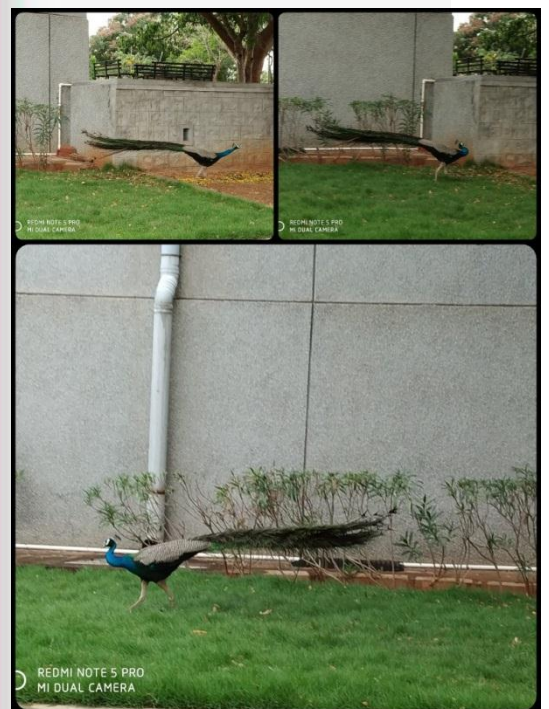

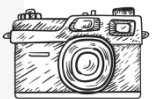

In the year **1990**, Russian Federation parliament formally declared itself to be sovereign. This day is celebrated as Russia Day.

**DID YOU  
KNOW???**

Snails' teeth are the strongest natural material on Earth, able to withstand pressures high enough to turn carbon into diamond.

# CAMPUS CLICKS

## HEALTH TIPS

Cucumber has a good amount of water and soluble fiber, making it ideal to promote hydration and help in weight loss. Cucumbers have a rich amount of vitamin A, vitamin C and folic acid. Cucumbers have good antioxidants present and have a higher amount of vitamin C. But more intake of vitamin C acts like pro-oxidant against the nature of its natural anti-oxidant. It would not have been good for the body. Consuming more of the cucumbers affects the working style of the kidney.

## AWARENESS CORNER

### SAVE WATER NOW.

**IT'S EASY TO SAVE WATER:**

-  Cut your shower time by two minutes
-  Turn off the tap when brushing your teeth
-  Run your washing machine and dishwasher when they're full and on 'eco' and 'fast' settings
-  Use the half-flush on toilets where possible

## BOOK REVIEW

### The Narrow Road to the Deep North

Richard Flanagan

A novel of the cruelty of war, and tenuousness of life and the impossibility of love.

Richard Flanagan's story — of Dorrigo Evans, an Australian doctor haunted by a love affair with his uncle's wife — journeys from the caves of Tasmanian trappers in the early twentieth century to a crumbling pre-war beachside hotel, from a Thai jungle prison to a Japanese snow festival, from the Changi gallows to a chance meeting of lovers on the Sydney Harbour Bridge.

Taking its title from 17th-century haiku poet Basho's travel journal, *The Narrow Road to the Deep North* is about the impossibility of love. At its heart is one day in a Japanese slave labour camp in August 1943. As the day builds to its horrific climax, Dorrigo Evans battles and fails in his quest to save the lives of his fellow POWs, a man is killed for no reason, and a love story unfolds.
