KNOWLEDGE UPDATE

SoM- Dr. S Rajkumar and Mr. Karthikeyan N faculty members, along with Mr. Vignesh, Mr. Niteesh, Mr. Senthil Kumar and Mr. Visakh of II MBA attended Budget Analysis session conducted by CMA at Indian Chamber of Commerce, Coimbatore.

IT Department - Dr. A. Christy Jebamalar Assoc. Prof. /IT trained IT Third year Students on "How to prepare Literature Survey on Deep Learning" and also encouraged the students to publish papers in Reputed Journals and Conferences

ICE Department - Prof. Barua, IIT Kharagpur conducted a Webinar on Low Pressure Measurement Technique on Industrial Instrumentation for III YEAR

ICE Department- A Lecture on current opportunities for a graduate engineer through GATE was given by Mr. A. Srinivasan from Professional Gate Academy.

MEETINGS & DISCUSSIONS

EEE – Department – The HoD convened a meeting with the Final year coordinators and the course handling faculties to ensure the regularity of final year classes.

EEE Department - Presentation of NBA criteria by the Criteria In-charges of the department.

EEE Department- Final year EEE students with backlogs were counseled by the HoD, Academic coordinator and the Final year coordinator.

PARTICIPATIONS

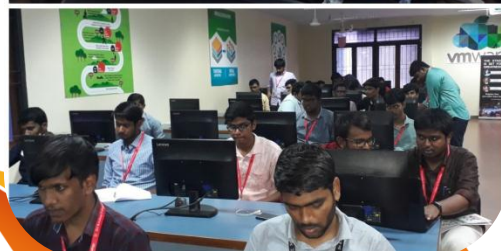

CSE Department – Mr. M.Logeshwaran II CSE B, Mr.H.A Madhusudanarao II CSE B, Mr. M. Kesavananthini III CSE B, Ms. S.Nithya shree III CSE B

Ms. M. Mahalakshmi III CSE B, Ms. S. Parkavi III CSE B, Ms. G.Rohini III CSE B, Ms. M.Reeya kumari III CSE B and Mr. M.Raghul. III CSE B actively participated in the event iConic Quiz Competition at PSG.

ACTIVITIES

CSE Department- Programming Club Activities was conducted for the students.

Tips to Make a Responsive Design:

1. Go Mobile First:

Before you plan your design for desktop or laptop screens , think about the UX on a mobile device.

2. Use Percentages:

Set a maximum layout size and from there, define the widths and heights by proportion , not pixel!

3. Make it Readable:

Make your text size large enough to read from a smaller screen. Use em instead of px!

4. Remove the Unnecessary:

Get rid of excessive elements, not only for your user experience, but also for website's speed!

5. Try Media Queries:

Media Queries determine which CSS rules to apply based on device's resolution, height, width, and orientation!

6. Use the Right Button Size!

Avoid small button size. Make sure your buttons are large enough in all devices.

INTERESTING ENGINEERING

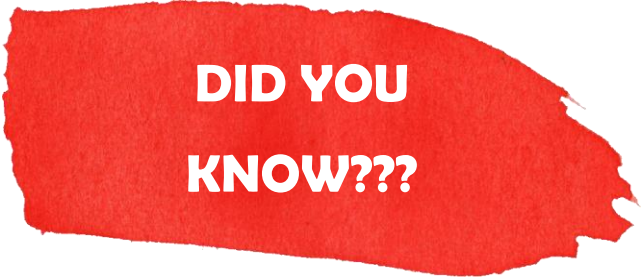

Divers have long been limited by human ability to maneuver in fast-moving currents. That's where the Crabster comes in. The six-legged, 1,500-pound mechanical underwater robot is ready to help scientists explore previously unreachable sea beds. It stabilizes itself by putting its head down, its rear up, and facing the water flow, and can dive as deep as 660 feet. It also comes equipped with 11 cameras, sonar, and an acoustic Doppler current profiler to send information back to the surface.

MOTIVATIONAL ZONE

HOW DOES A CHAMELEON CHANGE ITS COLOR?

Chameleons change their color by manipulating specialized cells called chromatophores that contain different colors of pigment. When a chameleon wants to convey a particular mood, its brain sends a message to its chromatophores, which then move pigments around to change the chameleon's color.

BOOK REVIEW

The Luminaries

Eleanor Catton

It is 1866, and young Walter Moody has come to make his fortune upon the New Zealand goldfields. On the stormy night of his arrival, he stumbles across a tense gathering of twelve local men who have met in secret to discuss a series of unexplained events: A wealthy man has vanished, a prostitute has tried to end her life, and an enormous fortune has been discovered in the home of a luckless drunk. Moody is soon drawn into the mystery: a network of fates and fortunes that is as complex and exquisitely ornate as the night sky. Richly evoking a mid-nineteenth-century world of shipping, banking, and gold rush boom and bust, *The Luminaries* is a brilliantly constructed, fiendishly clever ghost story and a gripping page-turner.
