ACTIVITIES

Mechanical department- The following Club Activities was inaugurated Society of Automotive Engineer's club, ISHRAE club, Entrepreneurship development cell club, Product Development cell club, Institution of Engineer's club, Institution of Indian foundrymen club, Quality circle forum of India club, as a part of association programme and the Office Bearers were introduced.

CSE DEPARTMENT- Programming Club activity was conducted for the students.

Mechanical department- Mechanical Engineering Association was inaugurated and the Chief Guest was Mr.B.Jayaraj, DGM-Technology (EPSAC), ELGI Equipments Limited, Coimbatore and took a guest lecture on Expectations of Mechanical Engineers in Industries.

MEETINGS & DISCUSSIONS

Principal Sir convened a meeting with all Doctorates with the agenda of Action plan for Research & Development

ECE DEPARTMENT- 1st ECE ASSOCIATION Meeting was conducted with the Student coordinators by Association faculty coordinators Mr.R.R.Thirrunavukkarasu, Mr.S.Ganesh Prabhu on the agenda Association Inauguration, Avantaa and Engineer's day preparation

Civil Department-Project Review (Zero) for II year - M.E. Structural Engineering Students was conducted.

Civil Department-First class committee meeting for III year B.E. Civil Engineering Students was conducted by the Class committee Chairperson Ms. A.Vennila, AP/Civil.

Civil Department-First class committee meeting for II year B.E. Civil Engineering Students was conducted by the Class committee Chairperson Dr. I.Padmanaban, HOD/Civil.

KNOWLEDGE UPDATE

IT Department- A webinar on " How can IoT/IloT bring in Disruption in various Industries and How can we tackle it? " conducted for IoT club students. The speaker was Mr. Devasheesh Saxena, Principal Architect, Quest Global.

SoM- Mr.N.Karthikeyan, Assistant Professor/MBA delivered a guest lecture on the topic "Cost Management of Engineering projects" for II ME Structural Engineering students of our college.

Most Useful VS Code Extensions:

1. GitLens:

Supercharge the Git capabilities built into Visual Studio Code..

2. Beautify:

Beautify code in palce for VS code.

3. Live Share:

Real-time collaborative development from the comfort of your favorite tools.

4. Code Runner:

Run code snippet or code file for multiple languages.

5. VS IntelliCode:

AI-assisted development features from Python, TypeScript/Javascript/Java.

6. Live Server:

Launch a development local server with live related feature for static and dynamic pages.

7. Bracket pair colonizer:

Makes sure all the open/close brackets comes to your Knowledge.

INTERESTING ENGINEERING

With massive payment-data breaches on the rise, fraud prevention needed a revolutionary ally. Enter Card Control, an app that allows users to turn their credit cards on and off with the swipe of a finger. It also links purchases to a physical location, authorizes card usage at specific stores, and disables or restricts online shopping. A secure code syncs these preferences with your bank's software. In beta tests, Card Control reduced fraud by up to 60 percent. The tech will soon be compatible with 10,000 local and regional banks

HEALTH TIPS

Find out Morning Breakfast is how much beneficial for health

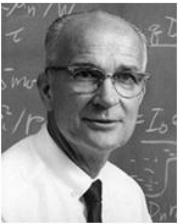

Many people have a habit of having breakfast in the morning. It also maintains its health and reduces the risk of developing diseases. We stay energetic all day long after having breakfast. In order to keep the body healthy, it is important that we never give up our breakfast. If you don't, start now so that your health isn't harmed.

* If you think that not having breakfast reduces your weight, it is not. Your decrease intake may increase your weight. When you don't have breakfast, your body's metabolism doesn't work the right way. This decreases the body's ability to burn calories and increase your weight.

* After seven-and-a-half hours of sleep at night, your body needs nutrition and energy. Moreover, staying empty overnight increases the amount of acid. As acids are used to digest food, when you do not have breakfast, they make gas in the stomach and cause acidity problems.

* Not having breakfast affects your sugar level. This may cause diabetes problems. Sometimes you may also have stress and depression during snack shortages.

direction you are
moving.

BOOK REVIEW

The Catcher in the Rye

J.D. Salinger

The hero-narrator of *The Catcher in the Rye* is an ancient child of sixteen, a native New Yorker named Holden Caulfield. Through circumstances that tend to preclude adult, secondhand description, he leaves his prep school in Pennsylvania and goes underground in New York City for three days. The boy himself is at once too simple and too complex for us to make any final comment about him or his story. Perhaps the safest thing we can say about Holden is that he was born in the world not just strongly attracted to beauty but, almost, hopelessly impaled on it. There are many voices in this novel: children's voices, adult voices, underground voices-but Holden's voice is the most eloquent of all. Transcending his own vernacular, yet remaining marvelously faithful to it, he issues a perfectly articulated cry of mixed pain and pleasure. However, like most lovers and clowns and poets of the higher orders, he keeps most of the pain to, and for, himself. The pleasure he gives away, or sets aside, with all his heart. It is there for the reader who can handle it to keep.

J.D. Salinger's classic novel of teenage angst and rebellion was first published in 1951. The novel was included on *Time's* 2005 list of the 100 best English-language novels written since 1923. It was named by Modern Library and its readers as one of the 100 best English-language novels of the 20th century. It has been frequently challenged in the court for its liberal use of profanity and portrayal of sexuality and in the 1950's and 60's it was the novel that every teenage boy wants to read.
