SKCT | INDEPENDENCE DAY CELEBRATIONS

India's Independence Day was celebrated at Sri Krishna College of Technology, Coimbatore on 15 August 2021 to honour the constitution of Independent India. Dr Srinivasan Alavandar, Principal, unfurled the Tricolor at College Premises and paid homage to the martyrs who have sacrificed their lives for the country.

Congratulations

Mr Mohit Kumar D, Student of Third B.E. EEE B section, secured the Fifteenth Place in "**ESIP-2021 National Online Examination on Electric Vehicles**" on 01 August 2021.

IT | STUDENT APPRECIATION | CAMPUS AMBASSADOR – GREAT LEARNING
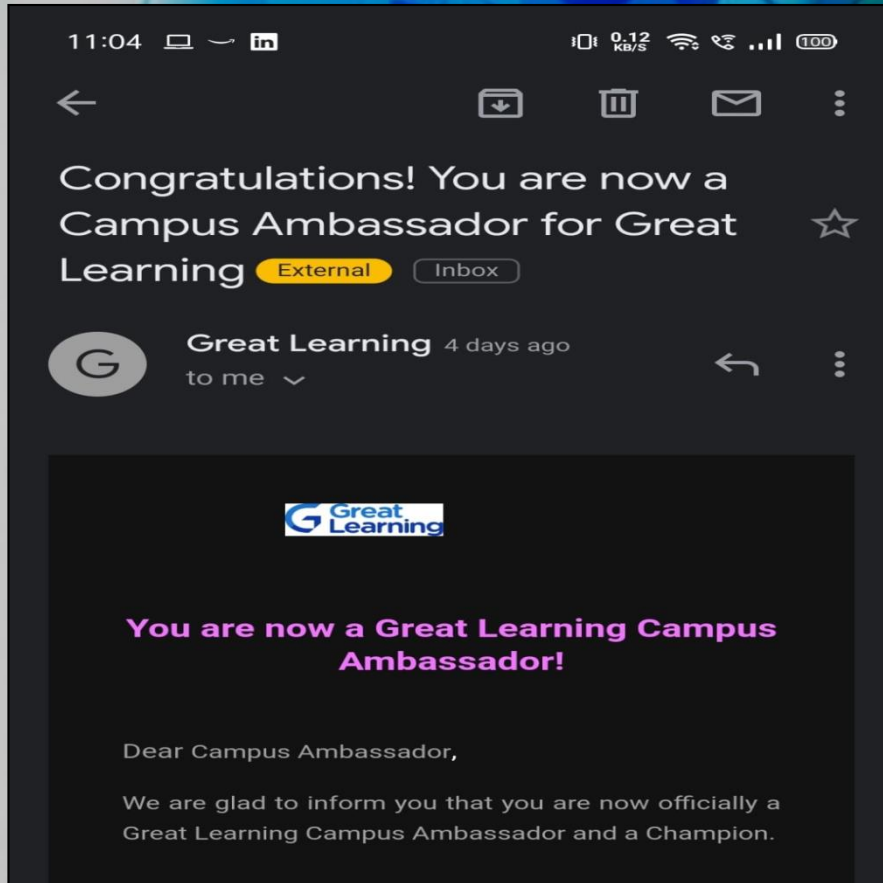

Mr Nithish Anand B, Student of Second B.Tech. IT B section, has been selected as a **"Campus Ambassador for Great Learning."**

IT | STUDENT APPRECIATION | THE NATION AND FIGHT AGAINST NOVAL CORONA VIRUS (COVID-19)

Mr Sanjeev, Student of Third B.Tech IT B section, received an outstanding dedication for service towards **"The Nation and Fight Against Noval Corona Virus (Covid-19)"** during the Pandemic Period on 15 August 2021.

IT | STUDENT CERTIFICATION | ETHICAL HACKING, CYBER SECURITY & WEB PENETRATION TESTING

ERSEGMENT

Solutions PVT LTD

Cyber Security Certificate

The certificate is presented to

Vikkash S

This is to certify that Mr./Ms. Vikkash S has completed 38 hours course on Ethical Hacking, Cyber Security & web penetration testing on 30/07/2021 with good proficiency achievement.

congratulations on a job well done!

awarded this on 16/07/2021

CH. Kortheek
kartheek chanda
Director

Mr Vikkash S, Student of Third B.Tech. IT B section, completed a course on **"Ethical Hacking, Cyber Security & Web Penetration Testing"** offered by Ersegment Solutions Pvt., Ltd., on 16 July 2021.

IT | STUDENT CERTIFICATION | ADVANCED DIPLOMA IN JAVA PROGRAMMING

Mr Muniyappan E, Student of Third B.Tech. IT B section, completed an online course on **"Advanced Diploma in Java Programming"** offered by CSC College, Coimbatore during 02 January-April 2021.

# ECE | STUDENTS' PARTICIPATION | WEBINAR ON AWS MASTERCLASS ON CLOUD COMPUTING
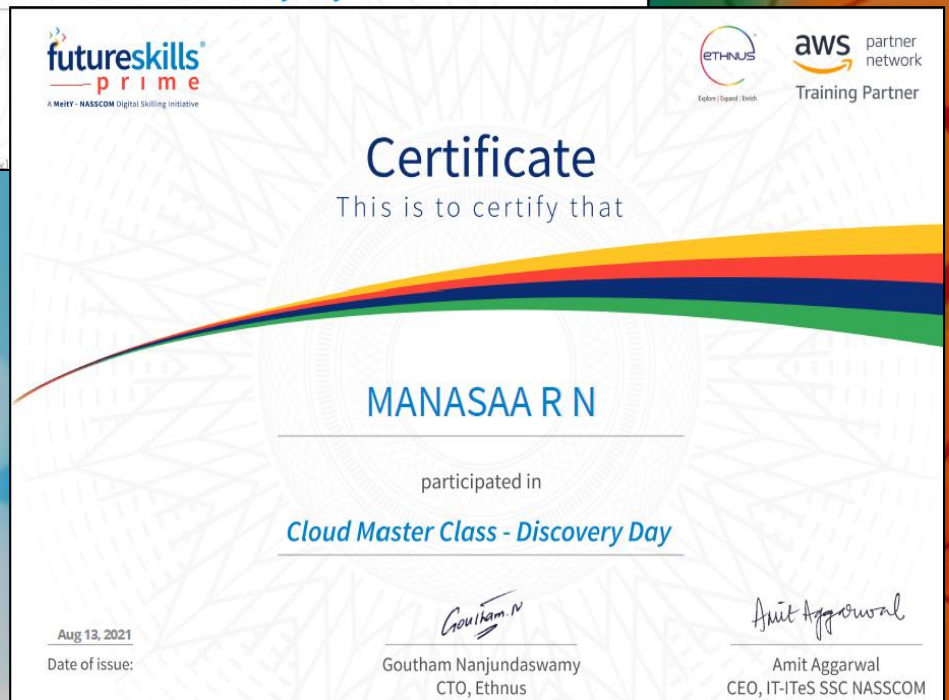

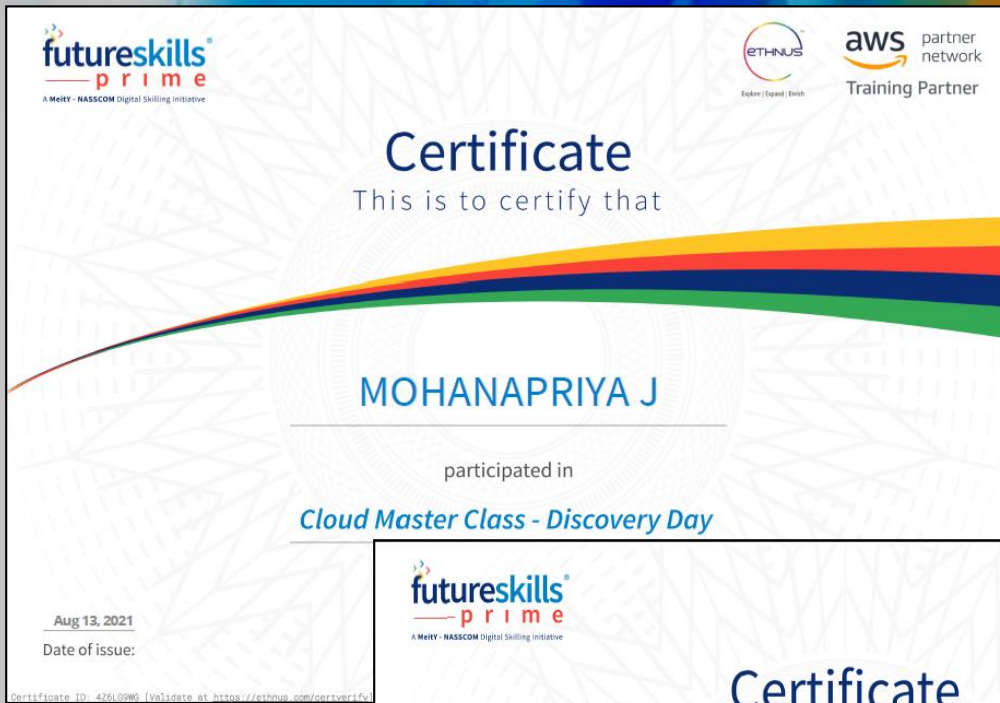

Ms Manasaa R N and Ms Mohana Priya J, Students of Second B.E. ECE B section, attended a webinar on **"AWS Masterclass on Cloud Computing"** organised by futureskills prime on 12 August 2021.

ECE | STUDENT PARTICIPATION | RASHTRAGAAN

Ms Mohanapriya J, Student of Second B.E. ECE B section, participated in **"Rashtragaan"** organised by Ministry of Culture on 15 August 2021.

EEE | AZADI KA AMRIT MAHOTSAV EVENT
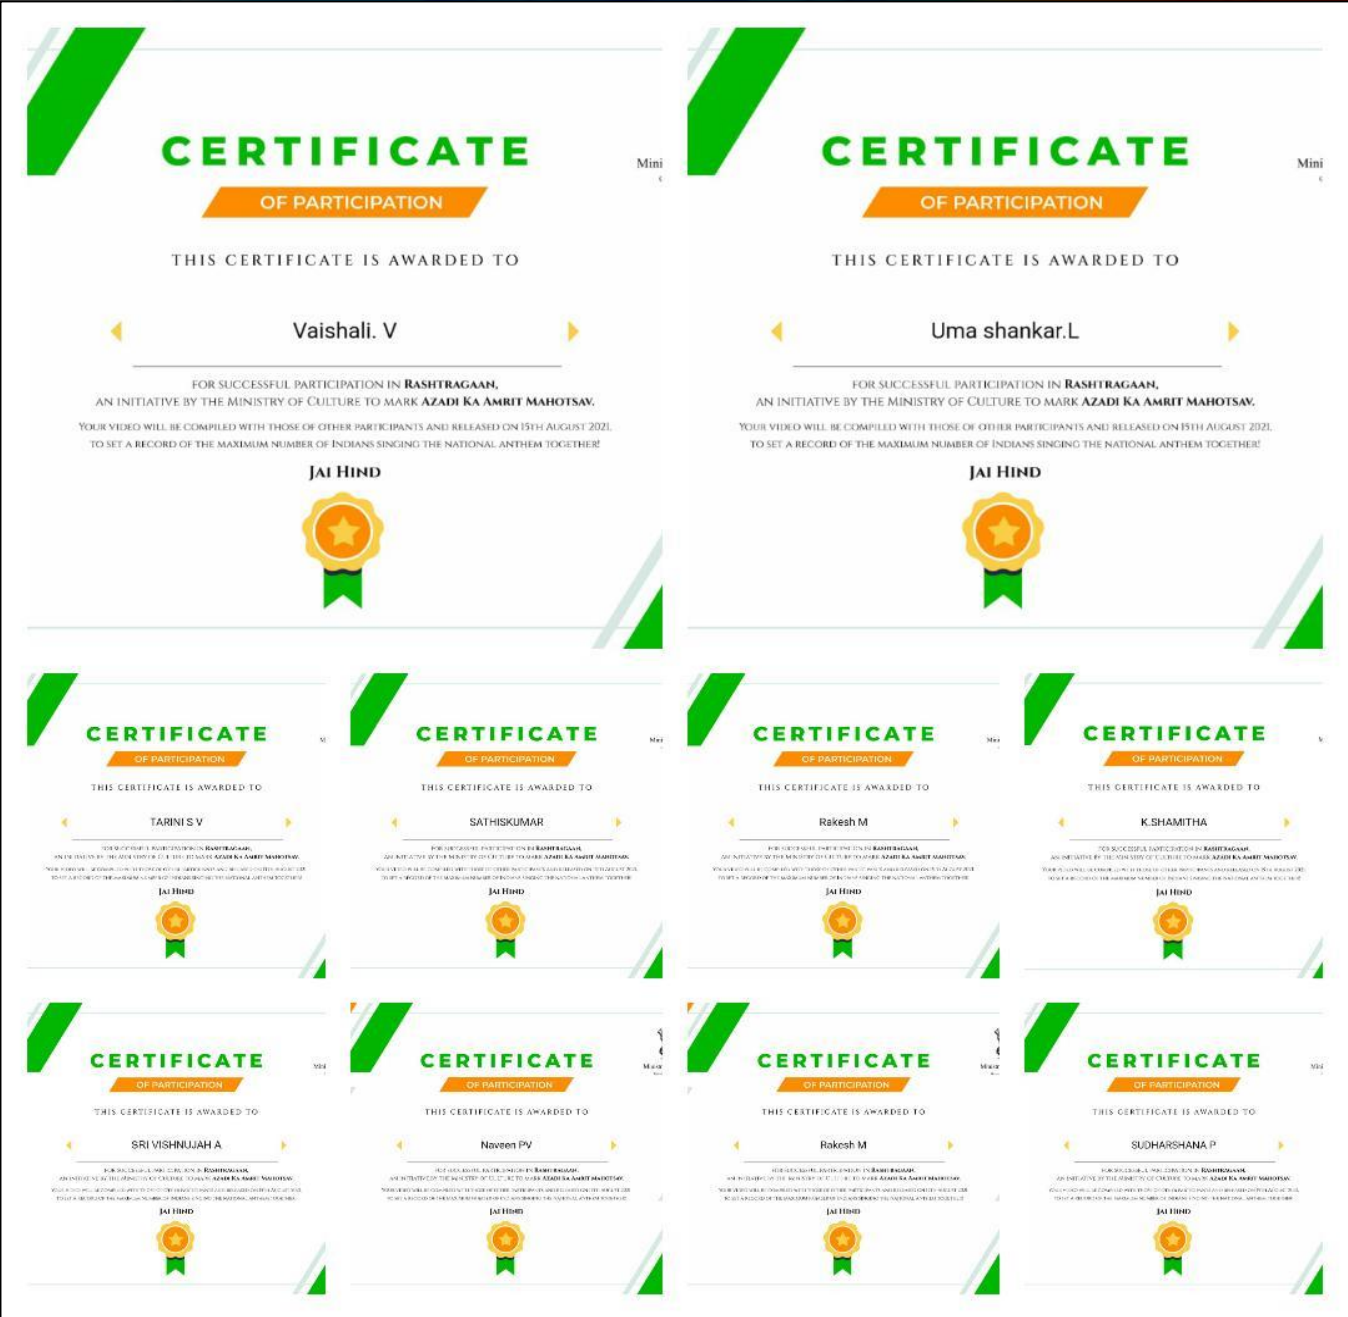

Students of Third B.E. EEE B section participated in "**Rashtragaan**" as a part of Independence Day Celebration.

ECE | STUDENT PARTICIPATION | DRAWING AND QUIZ COMPETITION | NATION FIRST, ALWAYS FIRST

Ms Manasaa R, Student of Second B.E. ECE B section, participated in Drawing and Quiz Competition on **"Nation First, Always First"** organised by the Dept. of Mechanical Engineering as a part of 75th Independence Day on 15 August 2021.

IT | PAPER PUBLICATION | CUSTOMIZED MUSIC CLASSIFICATION AND RECOMMENDATION SYSTEM BASED ON CLASSIFIERS OF NEURAL NETWORKS AND SENSOR EMBEDDED ON SMART DEVICES

Chapter 79

Customized Music Classification and Recommendation System Based on Classifiers of Neural Networks and Sensor Embedded on Smart Devices

V. Roopa, A. ChristyJeba Malar, R. Rekanivetha, R. Thanga Pradeep Kumar, R. Sarveshwaran, and A. Prithiksha Parameshwari

Abstract Advancements in the process of embedding sensors in vehicles are helpful in recognizing the emotions of the person for annotating large music data set. The existing automated music playlist consists of collaborative filtering or content-based approaches in providing a fitting extension to a given playlist. This paper proposes a contextual-based music recommendation system that recommends songs based on the learning from user emotion. The user emotion is classified by the sensor embedded in the vehicle or the wearable computing device which is attached to the photo plethysmography (PPG) physiological sensors. This will recommend the songs to the user based on the context from the classified dataset. Prior to recommendation, songs are classified into genres considering the similarity in temporal structure and emotion classification is based on sensor values. This paper further proposes genre classification process with two steps comprising of feature extraction and music genre classification. The emotion classification from sensor values are may be based on decision tree, and Support vector and KNN algorithms of machine learning. Music

IT | PAPER PUBLICATION | AN INTELLIGENT TRACKING APPLICATION FOR POST-PANDEMIC

An Intelligent Tracking Application for Post-pandemic

V. Roopa, R. Vasikaran, M. Sriram Karthik, S. Sindhu, and N. Vaishnavi

Abstract The Global Pandemic has created a huge impact in the country at a tremendous rate affecting 3,794,314 people, snatching the lives of 66,678 people. This has created a huge impact on the county's economy and socioeconomic and psychological status of the citizens of the country. This health also created a situation which altered the lifestyle of the people. Due to the prevailing conditions of India the government has been liberalizing the lockdown and implementing unlock provisions in the country as a result it is difficult to track people movements and migrations which is the only preferable means to control the spread of the disease and to find the suspect able positive cases. A tracking system with a mobile-based application can be implemented which tracks the users of the application's travel history and movements on a daily basis in the society which keeps the records of the user along with physiological parameters (Temperature) so that the changes, suspects can be easily tracked.

1 Introduction

In September 17, 2019, a strange man admitted with an unknown disease in Wuhan, Hubei province, in China, which turns out to be a reason for global pandemic called COVID-19 which drastically changed and affected the whole human lifestyle in the world. It had a direct impact on people's health made them fall sick, increase the suffering rate, ultimately end up in the number of the causality, according to WHO reports COVID-19 affects in different ways for different people, dry cough, fever and tiredness are the most common symptoms of COVID-19. Based on their immune

Ms V Roopa, Asst. Professor, Mr R Vasikaran, Mr M Sriram Karthik, Ms S Sindhu and Ms N Vashnavi, Students of Final B.Tech. IT, published a conference paper in the Book Series Smart Computing Techniques and Applications on **"An Intelligent Tracking Application For Post-pandemic"** on 13 August 2021.
