DATE: 14.10.2023

KEYPOINTS:

The Department of ECE, Sri Krishna College of Technology organized a guest lecture on ““Dr.APJ ABDUL KALAM: TAUGHT INIDA TO DREAM” as a part of Youth Awakening day. Dr.S.Henry Kishore explained about the life of Dr.AbdulKalam and explained some of his notable quotes to the students and also shared about his early struggle and family life, how his hard work turned fruitful and he became a renowned Scientist and how he was a much loved and respected President of India. Dr.Kalam was an Indian aerospace scientist and politician who served as the 11th President of India from 2002 to 2007. He was born and raised in Rameshwaram, Tamil Nadu and studied physics and aerospace engineering. In his school years, Dr.Kalam had average grades but was described as a bright and hardworking student who had a strong desire to learn. He spent hours on his studies, especially mathematics. After graduating from the Madras Institute of Technology in 1960, Dr.Kalam joined the Aeronautical Development Establishment of the Defence Research and Development Organization (by Press Information Bureau, Government of India) as a scientist after becoming a member of the Defence Research & Development Service (DRDS). Dr.Kalam served as the Chief Scientific Adviser to the Prime Minister and Secretary of the Defence Research and Development Organisation from July 1992 to December 1999. The Pokhran-II nuclear tests were conducted during this period in which he played an intensive political and technological role. Kalam served as the Chief Project Coordinator, along with Rajagopala Chidambaram, during the testing phase. Media coverage of Kalam during this period made him the country's best known nuclear scientist.
