WEBINAR REPORT

Topic: Knowing about our environment and nature oriented sustainable living

Date: 19.4.2020

Organized by: Dr Senoj Joseph / Banuselvasarawathy

Speaker: Deepak Venkatachalam/IT Analyst, TCS, Chennai

Number of participants: 65(including faculty and students)

Webinar on Knowing about our environment and nature oriented sustainable living was organized jointly by the ECE alumni cell and IIC on 19.4.2020. The speaker was an alumnus of the institution Mr Deepak Venkatachalam who completed his UG degree from ECE department in the year 2012. Currently he is IT analyst at TCS, Chennai. The session was done using Zoom meeting. The speaker is attached with several NGO in Chennai and regularly visits college and schools to nature related sessions. The topic was a right choice in this time because of the govt in most of the advanced countries is less pollution. Survey shows that some of the pollutions like noise, air and plastic pollution are manmade and can be reduced to a large extent by controlling our usage. Plastic if not properly disposed will lie in soil for thousands of years and clog the water bodies. Government has taken steps to prohibit usage and sale of one time use plastic. But lot of items look natural but are made of plastic which we are not aware. The speakers explained about alternative possible to avoid the usage of harmful chemicals which spoil our water system. He spoke about natural food, light pollution, noise pollution etc. Many queries were answered and materials were given. Overall the session was very much appreciated by the faculty and students.
